# About Company

## A Comprehensive Facility for Printing, Packaging, and Fully Automated Corrugation Plant

With over 23 years of industry experience, a sprawling 7.5 lakh sq. ft. manufacturing facility, and a monthly production capacity exceeding 5000 metric tons and a skilled workforce of more than 500 employees, we have been providing exceptional service to our customers.

We believe that packaging is more than just a protective covering; it's a critical component of your product's identity and customer experience. At Miraj Multicolour we are dedicated to providing innovative and reliable solutions that ensure customer satisfaction and success.

# Vision and Mission

## Vision

Be amongst the Top 3 Players Providing Innovative Packaging Solutions across Industries, Enhancing Customer Value, Consistently

## Mission

01

Enhance competencies, enable and empower them to Innovate manufacturing practices & processes

02

Increase business with existing clients, acquire new customers, enter new geographies & segments

03

Invest significantly in Research, Innovation and Analytics to keep upgrading our product offering.

04

Make organization system driven by refining existing processes and leverage IT to improve our efficiencies and decision making

05

Invest in new technology and capacity enhancement to cater to future growth

06

Build Compliant, Ethical and Sustainable Business for all stakeholders

07

Build Brand by increasing visibility across platforms

# Why Miraj Multicolour

Miraj Multicolour is takes pride on offering end-to-end packaging solutions tailored to meet the unique needs of our customers. Here's why clients trust us:

23+ years of  
Industry experience

Advance Machinery  
and Technology

100+ Satisfied  
Clients

# Infrastructure

State of the Art Manufacturing Facility

**7.5 LAKH+**

Square feet area  
manufacturing  
facility

**5000**

Metric ton Per month  
manufacturing  
capacity

Our manufacturing facility is equipped with the latest technology, allowing us to handle production of **30-40 million mono cartons and 120 metric tons of Corrugated boxes per day**. Our infrastructure is designed to optimize production efficiency and ensure seamless logistics for timely deliveries.

# Quality Assurance

At Miraj Multicolour, quality is non-negotiable. We are an ISO 9001:2015 certified company, adhering to the highest standards in every product we deliver. Our robust quality assurance processes include rigorous testing and inspection at every stage of production, ensuring that every product meets our clients' exact specifications. Our well equipped labs and expert staff prioritize safety, durability, and Visual appeal in all our packaging solution.

**We maintain the highest standards in our operations, supported by various certifications:**

## Post Press Machines

1. BOBST NOVA CUT 106
2. BOBST NOVA CUT 106-EA
3. ETERNA -1050SE
4. ETERNA -1050FI
5. DGM Die-cutter

## Pasting Machines

1. BOBST VISION FOLD 110
2. ETERNA TA900 C3
3. BOBST VISION FOLD - 110A
4. DGM-SMART FOLDER GLUER

# Machinery Details

Corrugation Machines	Details
1. 5 Ply Auto Board Line	Machine Size 2200 mm
2. 4 Col Printer Slotter	Machine Max size 1200x2400 mm
3. Auto Folder Gluer/Stitcher	operates at 120 boxes per minute
4. BOBST Auto Glueing Machine	operates at 300 boxes per minute

Other Machines
1. Fully Automatic Dry Lamination Machine
2. Window Machine
3. Kohmann F-1000/2
4. Flute Machine(E,F,G,N)
5. E-flute Laminator Machine
6. Rotary Punching
7. Albo System Pile Turner
8. H&B Liner Machine
9. Automatic Burger Box Making Machine

## Quality Control Machines

1. GSM Tester - Weighing Balance

2. Bursting Strength Tester

3. Dial Thickness Gauge

4. Stiffness Tester

5. Moisture Meter

6. Scuff Resistance Tester

7. Cobb Tester

8. Light Box

9. Hot Oven

10. Peel Strength Tester

11. Box Compression Strength Tester

12. Steel Measuring Scale

13. Spectrometer

14. Weight balance up to 5kg

15. Vernier Caliper

16. GSM Round Cutter

17. 10X10 CM Template

18. Gloss Meter

19. Slip Friction

20. 5X5 CM Template

# Corrugated Box

We offer boxes with various configurations of flute, including A, B, C, E, and F flutes, each designed for specific strength, cushioning, and durability to meet diverse packaging needs

## A-Flute

A-Flute, one of the thickest flutes, offers excellent cushioning and stacking strength, ideal for heavy-duty packaging of fragile items like electronics, glassware, and furniture.

## B-Flute

B-Flute balances strength and printability, ideal for retail packaging and displays. Though thinner than A-Flute, it offers good cushioning for food, beverages, cosmetics, and more.

## C-Flute

C-Flute is widely used for its balance of cushioning and stacking strength. Versatile and durable, it's ideal for shipping boxes, food packaging, automotive parts, and textiles.

## E-Flute

E-Flute, thinner than A, B, or C flutes, offers a smooth surface for high-quality printing while maintaining good strength. Ideal for retail packaging, cosmetics, electronics, and pharmaceuticals.

## F-Flute

F-Flute, thinner than E-Flute, offers excellent printability and a sleek finish. It's perfect for luxury, high-end cosmetics, and promotional packaging requiring fine presentation.

# Mono Cartons

High-quality, customizable cartons with features like window patching, foil stamping, braille printing, and MET-PET lamination.

## Liner Carton

These cartons are specially designed for storing liquids or semi-liquids, with an inner protective lining of paper or aluminum to ensure airtight conditions.

## Window Patching Carton

These cartons have a transparent window allowing a view of the product inside, giving customers a sneak peek while keeping the packaging intact.

## Foil Stamping Carton

These cartons feature metallic holograms or custom designs using hot foil stamping, ideal for branding and showcasing logos and unique packaging with a premium touch.

## Braille Carton

These boxes have embossed product names to aid visually impaired customers. They are mainly used by pharmaceutical companies for clear, accessible product information.

## Litho-Laminated Carton

Litho laminated cartons enhance visual appeal with printed graphics while providing added strength. They utilize the principle that oil and water don't mix to ensure durability.

## Met-Pet Carton

This lamination process uses PET film with metallic foil to achieve high-quality print and shine. Ideal for luxury and decorative boxes to enhance both design.
